Willems baling equipment

Willems Baling Equipment offers premium packaging solutions. Our team has almost 30 years of experience with designing and producing high-end machinery for the production of bales. We are proud of our new building which is operational from 2020. Engineering and design, R&D, production, assembly and testing facilities all brought together in our future proof factory. The ideal environment for our professionals to create the ultimate machinery and develop complete turn key production lines. You will be surprised by our facilities and results.
